

### NET INCOME VERIFICATION

The business must identify their net income for the last three fiscal years beginning January 1, 2017 and ending December 31, 2019. Net income can be obtained from the Profit and Loss statement, generally the last item on that statement. If the Profit and Loss statements cannot be found, net income can be derived from total sales minus total expenses. In addition, cash balances must be provided. This will be either the first line item on the balance sheet or bank statements as of the last day of each fiscal year. Three years of ending cash balances must be provided for each fiscal year.
